SEDIMENTARY GEOLOGY — VOLUME 85 — NOS. 1–4

Special Volume:

CURRENT RESEARCH IN FLUVIAL SEDIMENTOLOGY

Edited by:

CHRISTOPHER R. FIELDING

Department of Earth Sciences, University of Queensland, Brisbane, Queensland 4072, Australia

Contents

Preface 1
A review of recent research in fluvial sedimentology
C.R. Fielding 3

1. Sediment transport and bed forms
Fluvial transport of sand and gravel mixtures with bimodal size distributions
R.A. Kuhnle 17
Macroturbulence generated by dunes: Fraser River, Canada
R.A. Kostaschuk and M.A. Church 25
Formation of riffle–pool sequences: field evidence for an autogenetic process
N.J. Clifford 39
Sedimentary effects of cataclysmic late Pleistocene glacial outburst flooding, Altay Mountains, Siberia
A.N. Rudoy and V.R. Baker 53
Fluvial processes and recumbently folded crossbeds in the Pennsylvanian Sharon Conglomerate in Summit County, Ohio, U.S.A.
N.A. Wells, S.S. Richards, S. Peng, S.E. Keattch, J.A. Hudson and C.J. Copsey 63

2. Modern fluvial environments
Facies analysis of the Kosi megafan deposits
H. Singh, B. Parkash and K. Gohain 87
The Okavango Fan and the classification of subaerial fan systems
I.G. Stanistreet and T.S. McCarthy 115
Low sinuosity and meandering bedload rivers of the Okavango Fan: channel confinement by vegetated levées without fine sediment
I.G. Stanistreet, B. Cairncross and T.S. McCarthy 135
Morphology and sedimentation in Caribbean montane streams: examples from Jamaica and Puerto Rico
R. Ahmad, F.N. Scatena and A. Gupta 157
Control of river morphology by the grain-size of sediment supplied
P.F. Friend 171
Anastomosing channels and arroyo development on the Nogoa River, Central Queensland, Australia
B.L. Finlayson and S.O. Brizga 179
Provenance and sediment dispersal in the Rajang River delta/coastal plain system, Sarawak, East Malaysia
J.R. Staub and J.S. Esterle 191
Longitudinal facies architectural changes of a Middle Holocene anastomosing distributary system (Rhine–Meuse delta, central Netherlands)
T.E. Törnqvist, M.H.M. van Ree and E.L.J.H. Faessen 203
Geostatistical analysis of overbank deposits of anastomosing and meandering fluvial systems; Rhine–Meuse delta, The Netherlands
H.J.T. Weerts and M.F.P. Bierkens 221

3. Environmental management
Implications of sedimentological studies for environmental pollution assessment and management: examples from fluvial systems in North Queensland and Western Australia
B. Eyre and D. McConchie 235
The distribution of phosphate in sediments of the Johnstone Rivers catchment–estuary system, North Queensland, Australia
C. Pailles, D.M. McConchie, A.V. Arakel and P. Saenger 253
Control of soil acidification by fluvial sedimentation in an estuarine floodplain, eastern Australia
C. Lin and M.D. Melville 271

Flood management on the lower Yellow River: hydrological and geomorphological perspectives
L. Shu and B. Finlayson 285

4. Fluvial facies and facies models
Lithofacies variations within sandur deposits: the role of runoff regime, flow dynamics and sediment supply characteristics
J. Maizels 299
Coalescence megafan: multistorey sandstone complex of the late-orogenic (Mio-Pliocene) sub-Himalayan belt, Dehra Dun, India
R. Kumar 327
Terminal fans—a review with reference to Devonian examples
S.B. Kelly and H. Olsen 339
Fluvial processes and cyclicity in terminal fan deposits: an example from the Late Devonian of southwest Ireland
S.P. Sadler and S.B. Kelly 375
Controls on fluvial deposition in mixed fluvial and aeolian facies within the Tumblagooda Sandstone (Late Silurian) of Western Australia
N.H. Trewin 387
Contrasting development patterns of crevasse channel deposits in Cretaceous alluvial successions, Korea
C.W. Rhee, W.H. Ryang and S.K. Chough 401
Basinwide sedimentation and the continuum of paleoflow in an ancient river system: Kayenta Formation (Lower Jurassic), central portion Colorado Plateau
P.R. Luttrell 411
A sandy, bed-load dominated fluvial system deposited by lateral-accretion: Permian Karoo Sequence, South Africa
A.B. Cadle and B. Cairncross 435
Large fluvial systems: the Atane Formation, a fluvio-deltaic example from the Upper Cretaceous of central West Greenland
T. Olsen 457
Fluvial response to foreland basin overfilling; the Late Permian Rangal Coal Measures in the Bowen Basin, Queensland, Australia
C.R. Fielding, A.J. Falkner and S.G. Scott 475

5. Controls on alluvial successions and basins
Evolution of Devonian alluvial systems in an oblique-slip mobile zone—an example from the Broken River Province, northeastern Australia
S.C. Lang 501
Depositional controls in a bedload-dominated fluvial system: internal architecture of the Lee Formation, Kentucky
M.C. Wizevich 537
Longitudinal fluvial drainage patterns within a foreland basin-fill: Permo–Triassic Sydney Basin, Australia
E.J. Cowan 557
Flash-flood sediments and ichnofacies of the Late Pleistocene Homeb Silts, Kuiseb River, Namibia
R.M.H. Smith, T.R. Mason and J.D. Ward 579
Plant fossil distributions in some Australian Permian non-marine sediments
S. McLoughlin 601

6. Applied fluvial sedimentology
Eluvial gold placer formation on actively rising mountain ranges, Central Otago, New Zealand
D. Craw and J.H. Youngson 623
Development, sedimentation and economic potential of palaeoriver systems of the Yilgarn Craton of Western Australia
K.H. Morgan 637
